- A word that means 'related to grammar' → _ _ _ _ _ _ _ _ _ _

- A set of coded instructions for a computer → _ _ _ _ _ _ _ _ _ _

Task 2 -

1. Ask a family member to quiz you on the spelling of the words. If you get a word wrong, write it correctly **three** times.

2. Use at least five of the words to write a short, creative paragraph. Try to make your paragraph interesting and descriptive.

3. Read your paragraph aloud to a family member or friend and see if they can identify the words you used.

4. Optional: Illustrate your paragraph with a picture that represents the words.

Example Paragraph Starter:

*The television **programme** explained how a **hologram** is made. The scientist used a **diagram** to show the process. Meanwhile, the **programmer** wrote a new **program** to control the projections.*

Now, write your own paragraph:
